Offering "In-Depth Travel"

Our core goal is to provide tourists with "in-depth travel," a concept distinct from traditional sightseeing tourism. This travel style allows tourists ample time and energy to immerse themselves in thematic explorations, gaining a deeper understanding and comprehensive experience of our travel products. Orange Leisure Group offers a wide selection of high-quality routes and can customize, combine, and adjust itineraries based on personal preferences to meet diverse needs.

Moving Beyond Traditional Tourism

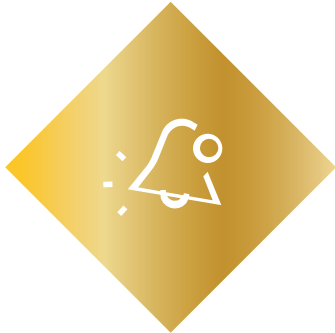

Orange Leisure rejects the traditional "superficial" tourism style and the common "rush-and-shop" model. We enable you not only to experience natural beauty firsthand but also to delve into cultural heritage and folk traditions, encouraging bold exploration of lifestyles and the essence of life while maintaining a positive attitude.

Emerging Travel Trends

Orange Leisure focuses on an emerging trend—"in-depth travel," which represents a positive and vibrant lifestyle. Beyond sensory enjoyment, this travel style aims to deepen understanding of life and the world, fostering a positive outlook. It differs from ordinary impression-based tourism and sightseeing itineraries, offering tourists a more profound experience and insight.
